

Eddie Mezardian of Craft Construction States-

“Of the many roofers that I’ve dealt with for years in South Florida, there is only one that I would give a ringing endorsement for and that I’d align my own name with - Therma Seal Roof Systems. They are competitively priced, provide excellent service and are fairly easy to interact with. They maintain scheduling and have a high level of accountability. Given what I do for my clients, their professionalism is imperative to me.”
